

I'm sending this to ask that you reject the NAB's petition 04-160. I enjoy having reliable traffic report's and reliable weather report's without having to wait for the commercial's to finish, or till it's finally time for the traffic & weather to come on at the end of the broadcast. I enjoy the quality of programming that I get on satallite radio that is sorely lacking on commercial radio. Since people actually pay for the music and information that they hear on satallite radio, it should be up to the people to decide what they want to hear, not the NAB. The NAB seem's to be a poor judge of quality on commercial radio, so let the people decide what should be broadcast on satallite radio. Please reject petition 04-160, and let the people keep the quality info and entertainment that they currently enjoy. Thank you, Bob Marcinkowski
